I am a researcher interested in how we acquire **linguistic knowledge** and use language to facilitate learning and knowledge acquisition **in other domains** and **across the lifespan**. I study these questions using tools from **cognitive science** and **neuroscience**. I have a strong interest in **applied statistics** and am committed to promoting **transparency and reproducibility** in research. I am also passionate about **making science accessible** to the wider community and **engaging diverse voices in research** to drive meaningful societal change.
